

## SUSPICIOUS CASES. MORE WHITEWASH.

Health Board Investigating Them at Reception Hospital.

One Patient Is Dead and His Home Quarantined.

No More Deaths or Cholera Cases Reported Down the Bay.

The Health Board's bulletin, issued at 10 o'clock this morning, stated that no cases of cholera had appeared in this city since Sept. 10.

Half an hour later it was announced that two very suspicious cases were being investigated today at the Reception Hospital.

The first case was that of Benjamin De Sezent, seventeen years old, who had been found ill on the street and taken to Gouverneur Hospital. Here his symptoms were found to resemble those of cholera.

Dr. Roberts, of the Bureau of Contagious Diseases, also reported that James Miller, of 265 West Twenty-ninth street, had died of a fatal case of cholera. The body was removed to the Reception Hospital for an autopsy.

The house at 265 West Twenty-ninth street, was at once put under quarantine. Biological examinations will be made to determine the cause of the disease.

At the Reception Hospital, Lester, who is in charge, said this afternoon that he was satisfied the case of Benjamin De Sezent was not cholera. The man was only troubled with a diarrheal complaint and would probably be discharged to-morrow.

Concerning the case of James Miller, whose body is at the hospital awaiting autopsy, Dr. Lester said he could not give an opinion. The body is inclosed in a metallic casket, and will not be taken out until Dr. Biggs arrives to perform the autopsy which would probably not be until to-morrow.

NO CHOLERA DOWN THE BAY.

Dr. Byrnes' Assuring Report from the Bohemia and the Islands.

QUARANTINE, S. L. Sept. 29.—Dr. Byrnes' 11 o'clock bulletin says: "Nothing new on Bohemia. Sick patients still improving."

"Byrnes."

At 11 o'clock Mrs. Jenkins and Walter went down the bay on the Bohemia to superintend the removal of the Bohemia's passengers to Hoffman Island.

Three more cases of measles have been removed from Hoffman Island to the steamer Washington, but only one child is seriously ill from that cause.

About six hundred of the Scandinavia's passengers who could not be taken to Hoffman Island yesterday for lack of transportation facilities were removed there this afternoon.

The best of steamships arrived at Upper Quarantine this morning comprised the Riga, Moravia, Nevada, Germania, Polaris, Nordland, Newmarket, Bremer, and the Lub, with 305 first class passengers from Bremen, and 100 from Hamburg.

The Nordland and Lub will be released this afternoon. The Scandinavia is expected to be released to-morrow.

The Germania, which was stopped from going to her berth by the health authorities, will not be released to-day. Dr. Roberts, of the Reception Hospital, said that the Germania and Moravia are still being isolated and will be ready for sea by Sunday.

The Polaris will be detained a few days longer, though it is expected to be released among her 140 steerage passengers and crew.

The Galia and France arrived this morning from Liverpool and the latter from Hamburg via New York.

Three Hamburg-American liners are due today: the Hamburg, Sept. 30; the Riga, Sept. 31; the Moravia, Sept. 31.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Galia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

The Moravia brings 103 first and 201 second class passengers from Hamburg. The Riga brings 103 first and 201 second class passengers from Hamburg.

So It Is Intimated the Donovan Reinvestigation Will Result.

Examining Board's Secretary Discredits Accusers in Advance.

Is the Gouverneur House Physician's Version to Be Accepted?

The Board of Examiners, which last Tuesday exonerated House Physician Donovan, of Gouverneur Hospital, from the charge of extortion, will meet at Gouverneur Hospital to-morrow afternoon to reinvestigate the case.

This the Board will do in pursuance of the order of President Porter, of the Board of Charities and Correction, to cite the complaining witnesses whose testimony had not been taken on the first hearing.

Dr. Lawrence Johnson, of 363 West Twenty-eighth street, who is secretary of the Medical Board of Examiners, of Gouverneur Hospital, was seen this morning by an Evening World reporter and asked whether the new investigation would be public.

"Private, of course," replied Dr. Johnson.

"Why did you not at the first hearing cite the witnesses who made the charges against Dr. Donovan?"

"You see," explained Dr. Johnson, "we have not the power to administer an oath, and so we thought that, allowing even that those witnesses would reiterate their charges, we had no other course left to pursue than to judge between them and Dr. Donovan on the mere principle of who would be more apt to lie—a reputable doctor whose antecedents were good, or a set of men of whom we could know nothing at all."

"And so you dispensed with their presence altogether?"

"Precisely. But," added Dr. Johnson, "since President Porter desires it, we shall certainly cite those witnesses now."

"Just won't you be guided by the same pre-determined principle of judging between them and Dr. Donovan?"

"Well, how else can one judge where the question is one of veracity?"

"Did you, Doctor, take into consideration the fact that Dr. Donovan's assertion that the six girls him by the Friedman out of gratitude would stamp the Friedman as most ungrateful people, as having immediately after the gift denounced Dr. Donovan as an extortioner?"

"You see," responded Dr. Johnson, "the man who made the affidavit charging Dr. Donovan with extortion was not the one who gave the money."

"Why will you not allow reporters to be present at the investigation?"

"Why, the Examining Board is not a judicial body. Its action is binding upon nobody. It can only recommend a certain line of action to the Board of Commissioners, which they may accept or reject at pleasure. In a word, it is a wholly private affair, and I don't see why reporters should be so anxious to attend it."

"As Dr. Donovan's term as house physician expires on the first of next month, is there any way of punishing him if it is found on the contrary to the facts that the complainant's story is entitled to credence?"

"No; I don't see any," replied Dr. Johnson, "his diploma cannot be taken from him by any power on earth, and he can only be prevented from practicing as a physician under the license of a judicial officer."

President Porter, of the Board of Charities and Correction, was also seen this morning by an Evening World reporter.

"The public will get entire satisfaction from the Medical Board of Examiners," was all he would say.

THICK DUST ON THE PACIFIC.

It May Mean a Volcanic Eruption or an Island's Birth.

SAN FRANCISCO, Sept. 29.—Advices from Honolulu state that the supply steamer St. Paul, which reached there Sept. 2, it steamed for four hours through a cloud so black and dense that it was not to be sighted.

When the steamer emerged from the cloud its decks were covered to a depth of several inches with volcanic dust. The nearest active crater to the steamer's position is Paboi Mountain, 205 miles away.

It is thought at Honolulu that there has been an upheaval on the shore or that a new island has emerged from the sea, as did Bogatuf Island six years ago.

SUICIDE AT THE ALTAR.

Deacon Danahy Shoots Himself in Baptist Church.

PHILADELPHIA, Sept. 29.—John William Danahy, aged fifty-six, a shoe dealer and who is a deacon of the East Baptist Church and chaplain of Newhall Post No. 7, G. A. R., left his home yesterday to see to some repairs in his store at the church.

He went immediately to the front of the communion rails and shot himself twice in the head with a revolver. Danahy was taken to the hospital, and died an hour later.

He was a victim of neuritis, and frequently declared that there was no better place to die than the church.

Miss Behrens's Alleged Contempt.

Actress Charlotte Behrens will have to show cause why she should not be punished for contempt of court, she failed to appear yesterday before a referee appointed by the City Court to inquire into her ability to pay a judgment of \$150 obtained against her by Robert M. Mantell for money lent.

Society Note.

[From Teas Station.]

Mr. Goughly—Where were you yesterday?

Mr. Canesucker—I was at the clam-whore's in Madison avenue. They are celebrating his diamond wedding and I was called on for a speech.

"What did you say?"

"Oh, nothing in particular. I merely expressed the hope that they would get along together."

Not Surprising.

[From Brooklyn Life.]

"I was going to bed the other night at my hotel at Sea Beach when a streak of lightning came in through the window and struck my bed."

"What was the effect?"

"Bent the lightning double."

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

## THE DAY IN WALL STREET. SHE FOUGHT THE FOOTPAD.

Heavy Purchases of Reading and a Rise in Prices.

Hardening Tendency of Money Causes a Weakness at Close.

Contrary to general expectation in view of the proceedings just instituted against the coal combine by the Attorney-General of New Jersey, stocks advanced this morning. Reading, on heavy purchases by Hollis & Co., Pupke, Walker & Co. and others, rose 3/4 to 57 1/2. The first mentioned took upwards of 10,000 shares.

It was reported that the pool in the centers had given a buying order for 25,000 shares to be executed by three or four brokers. New England was another strong feature and sold up to 90. Jersey Central advanced 1/4 to 131 1/2. Among the Industrials Pullman was the most active and up 1/4 to 40 1/2. American Tobacco preferred sold at 105 and was later bid for at 107.

After midday Omaha was taken in hand and rose to 33 under a sharp demand. It is said up to 100 of all listed stocks were only 10,000 shares.

In the afternoon trading the stock market was quiet and firm until just previous to the closing when a sharp decline set in. The market was a shade higher. Bank officials report a good demand.

Bankers' 90-day bills sold at 4.53 1/2 a 4.53 1/2, a 4.53 1/2, and a 4.53 1/2. A leading house sold a block of 100,000 of 90-day bills at 4.53 1/2. The supply of commercial bills is increasing.

Sterling Exchange closed weaker, with a downward tendency. Bankers' bills are in better supply.

The American Sugar Refining Company today made a reduction in most of its grades of soft refined. The deadweight in supplies of raws has been broken.

The statement of the business of the Pennsylvania R.R. Co. for the month of September, as compared with the same month in 1901, shows an increase in gross earnings of \$14,237, an increase in expenses of \$240,749 and a decrease in net earnings of \$102,155.

Money was firmer, both on call and on time. Stock Exchange borrowers paid 4 1/2 a 5 1/2 per cent for call loans, while time money was also a shade higher. Bank officials report a good demand.

A Pretty Girl's Adventure with a Central Park Robber.

Her Story in Court Causes Him to Be Held for the Grand Jury.

Mrs. Suzanne Foulton trembled like an aspen leaf when she tried to tell an Evening World reporter this morning how she fought off a highway robber in Central Park last evening, and when Adam Thompson, the man who assaulted her, was brought into Yorkville Police Court, the little French girl's countenance shuddered.

## "OH! THOSE TERRIBLE PAINS."

MRS. FEIGLE THOUGHT HERETIN WOULD DROP OUT.

She Is the Janitress of the New York Mercantile Exchange Building—She Went to Doctors McCoy and Wildman, and She Says Their Treatment Was Magic in Its Effect.

Mrs. Elizabeth Feigle is the janitress of the New York Mercantile Exchange Building, at the corner of Nassau and Broadway streets. She is a widow, and her husband, who was a cooper, died of a heart attack some years ago. She has three children, a son and two daughters. She is a very kind and helpful woman, and is well known to the janitors and other workers in the building.

One day, while she was working, she felt a sharp pain in her back, and she was unable to get up. She called for help, and the janitors brought her to the office of Dr. McCoy and Dr. Wildman. They examined her, and found that she had a severe case of rheumatism. They prescribed a course of treatment, and she was soon able to get up and resume her work.

Dr. McCoy and Dr. Wildman are well known physicians in New York City. They have a large number of patients, and they are very successful in their treatment of various diseases. They are both graduates of the New York College of Physicians and Surgeons, and they have been practicing for many years.

Dr. McCoy's office is at 5 East 42nd Street, New York. Dr. Wildman's office is at 11 East 42nd Street, New York. They both have large numbers of patients, and they are very successful in their treatment of various diseases.
